SCS Global Services (SCS) has been providing global leadership in third-party quality, environmental and sustainability verification, certification, auditing, testing, and standards development for three decades. Its programs span a cross-section of industries, recognizing achievements in green building, product manufacturing, food and agriculture, forestry, power generation retail, and more. SCS is accredited to provide services under a wide range of nationally and internationally recognized certification programs. Consistent with its mission, SCS is a chartered benefit corporation, reflecting its commitment to socially and environmentally responsible business practices.

### Our Certification

Indoor Advantage Gold Furniture — Indoor Air Quality Indoor Advantage Gold certification is SCS Global Services' highest level of indoor air quality performance for furniture. The certification assures that furniture products support a healthy indoor environment by meeting strict chemical emission limits for volatile organic compounds (VOCs). To be certified, products must be tested by independent labs for compliance with the ANSI/BIFMA X7.1, and either ANSI/BIFMA e.3 or CDPH/EHLB Standard Method V1-1 for VOC emissions of concerns.

Green Seal® is a nonprofit organization whose mission is to use science-based programs to empower consumers, purchasers, and companies to create a more sustainable world. Green Seal sets leadership standards that aim to reduce, to the extent technologically and economically feasible, the environmental, health, and social impacts throughout the life-cycle of products, services, and companies.

### Our Certifications

Green Seal™ Standard GS-37 – GS-37 enhances the safety of cleaning products by requiring them to be non-toxic and non irritating to skin and eyes. Products cannot be formulated with harmful chemicals from a comprehensive list, which includes heavy metals, phthalates, formaldehyde donors, carcinogens, mutagens, reproductive toxins, asthmagens, and ozone depleting compounds.

Green Seal® Standard GS-51 – GS-51 specifies performance requirements and environmental and health requirements for commercial laundry care products, such as concentration, reduced toxicity, biodegradability, and reduced and recyclable packaging. This standard covers products and multi-component systems for laundry and dry cleaning in industrial and institutional settings.

Green Seal® Standard GS-53 – GS-53 establishes environmental, health, and social requirements for specialty cleaning products intended for industrial and institutional use. This standard includes specialty cleaning products that contain enzymes or microorganisms.

GREENGUARD is a certification program that allows building professionals and consumers identify products that are help contribute to better indoor air quality. Over 400 green building codes, standards, guidelines, procurements policies, and rating systems give credit for GREENGUARD Certified products.

The UL Spot website houses the database of GREENGUARD certified products. Consumers and industry professionals alike can use this site to determine whether the materials they select are GREENGUARD Certified.
